

The diagram illustrates a graph structure with 16 vertices (0-15) and 8 triangles (t0-t7). The vertices are arranged in a triangular mesh. The triangles are labeled t0 through t7. A path of edges is highlighted in red: e0 (solid, connecting vertices 1 and 3), e1 (dashed, connecting vertices 3 and 8), e2 (solid, connecting vertices 8 and 6), and e3 (solid, connecting vertices 6 and 4). The edge e1 is labeled with the vector  $(0, 0, 1)$ .
